

## Auto-Trail Expedition 68

# £POA

The Expedition 68 is Auto-Trail's first foray into the world of dedicated sports campers. With over 38 years of experience in designing and building motorhomes of all shapes and sizes, this is the only campervan they have created specifically for cyclists to travel and transport their bikes, equipment, and themselves. This brand new model for the 2022 season comes in a modern, matt 'Expedition Grey', rather than standard white. Under the bonnet is a 140bhp engine, rather than the entry level 120bhp, which has a really positive effect on the performance, particularly when you are loaded up with equipment. Heating and hot water are easily accessible with an all in one solution from Whale. This efficient and space saving solution is mounted under the chassis and ensures you have the maximum storage space inside the van. This system can be run on electricity when on electric hook up (EHU), or gas
